

Determining your bird

1. Flip your coin to determine your bird's genotype and write it in the ID tag.
2. Determine your bird's phenotype and write it on the tag.
3. Draw in your bird's features.

Casit Identification		# _____
Researcher _____		
<i>Feature</i>	<i>Genotype</i>	<i>Phenotype</i>
Sex (X,Y)	_____	__female__
Beak Shape (B,b)	_____	_____
Chest Patches (T,t)	_____	_____

Determining your bird's sex cells

1. Write 5 different gene combinations that your bird could produce in its sex cells.
2. Write in the possible sex chromosome on the dotted line. You can use "X" and "Y" accordingly.
